Rogue Resources Announces Oversubscription & Closing of Private Placement

NOT FOR DISSEMINATION IN THE UNITED STATES OR FOR DISTRIBUTION TO U.S. NEWSWIRE SERVICES

VANCOUVER, B.C. – Rogue Resources Inc. (TSX-V: RRS) (“Rogue” or the “Company”) is pleased to announce that, subject to regulatory approval, it has increased its \$1,000,000 non-brokered private placement announced on March 4, 2016 to \$1,163,500 and closed the second and final tranche.

The second tranche consisted of the issuance of 3,355,000 non-flow through units (“NFT Units”) for gross proceeds of \$335,500. This brings the total raised to \$1,163,500, all in non-flow through proceeds. Each NFT Unit consists of one common share at a price of \$0.10 and one non-transferable common share purchase warrant which will entitle the holder to purchase one common share at an exercise price of \$0.12 until March 4, 2018. The shares in this tranche are subject to a four month hold period expiring August 2, 2016. Finder’s fees in this tranche are payable as to \$7,560 and 75,600 compensation warrants at an exercise price of \$0.15 until March 4, 2018. For further details of the offering see the Company’s March 4, 2016 news release.

Certain directors and/or officers of the Company have acquired securities under the private placement and upon closing, all officers and management of the Company will own common shares of Rogue.

The Company intends to use the net proceeds of the Offering primarily for expenditures on the Silicon Ridge Project (formerly called the Lac de la Grosse Femelle) as well as for general working capital.

Update on release of final assay results

The Company’s QA/QC process identified three samples that fell outside of the technical tolerance levels and needed to be rerun with Rogue’s analytical laboratory. Final results are now being consolidated and are expected to be released next week.

About Rogue Resources Inc.

With its diverse portfolio of Canadian properties, all in good standing, the Company has the ability to focus its efforts and finances on the project that demonstrates the greatest market potential for return. The current focus for Rogue is its Silicon Ridge Project in Quebec, located 42 km north of Baie-Saint Paul on the St. Lawrence River, and 4 km northeast of the Sitec silica mine, which has been in operation for over fifty years. Access to the project is via a paved highway and well maintained forestry access roads with a high voltage power line soon to be constructed to within 4km.
